

PetroAi LLC Changes its Name to PetroReal ASI

May 15, 2021 11:00 AM Eastern Daylight Time

HOUSTON--([BUSINESS WIRE](#))—PetroAi LLC (“PetroAi”) is proud to announce that it has changed its name to PetroReal ASI. PetroAi LLC was formed in February 2020 as an International venture between U.S. Energy Lender PetroAlpha Energy, and Korean Technology Companies, Energy Holdings Group, and iSciLab to bring machine learning and artificial intelligence valuation solutions into the decision-making process for oil and gas investments. “We understand that the real value of the big data generated in today’s digital oilfields lies not in the volume of information available, but in the way it is strategically gathered and analyzed” said Douglas Nester, co-founder, and Chief Executive Officer. “Our name now reflects our vision of combining the technologies of machine learning, artificial intelligence, the Internet of Things, smart devices and mobile connectivity to help our clients make informed investment decisions by unlocking the Real knowledge potential existing within these growing volumes of digital data.” The name change is effective immediately.

PetroReal ASI provides Investors with a family of big data analytics and digital oilfield solutions to improve and accelerate the decision-making process throughout the full life cycle of an investment and to monitor the Real-time financial performance of each investment made.
